SKILL CHECK

Choose a **facet** and a **skill**.

- ☐ 1 die for every point in the **facet**
- ☐ Add 1 die per Season if you have the **skill**
- ☐ Add 2 dice if you mark off part of your **Key**
- ☐ Ask for another Ranger **help** if needed.

Roll all the dice!

If you are receiving help, you can swap one of your dice for a helper's die.

HELP

Before rolling a skill check, another Ranger can make a roll to help:

Helper rolls **facet + skill**.

After you roll, you can swap one of your dice for a helper's die.

Everyone involved faces the consequences, even if you don't end up using one of their dice.

CASTING A SPELL

Step 1: Plan
Combine Personal Spell Note + Terrain Spell Notes
Ask the Conductor what Spell Notes are available, and see what combinations you can create.
You can use one of your Blur Notes instead of a Personal Spell Note, but you'll gain a point of Blur if you do!

Step 2: Negotiate
Let the Conductor know what you intend for the spell to do. The Conductor proposes a Scatter cost.

Step 3: Cast
If you pay the cost, the spell happens.

CHORD

To cast a Chord, all the **Rangers taking part must be acting at the same time and close to one another** (a few steps away at most).

Combine words from all Rangers on the Chord, folowing the **Casting a Spell** steps.

Share the Scatter cost.
